# WHO SAID 'BIG THINGS DON'T COME IN SMALL PACKAGES?'

If you need room to carry gear and equipment or work out of your truck, yet want to fight fire, our Simple-7 is simply the best unit for you.

In 2010, one of our State customers asked us to custom design an Initial Attack Skid Unit that could pack a big punch but still save space in the truck bed to carry materials for daily work tasks. The USFS has specs on a Type 7 unit but the elaborate pump/valve specifications made it very cost prohibitive for the average agency/department.

We started from scratch when designing our Simple-7. We provided a Wick 100-4H pump that delivers 100psi and is mounted in a quick-disconnect fashion and weighing in at only 21lbs for quick and easy portability. The pump and overboard draft is located right behind the driver door for easy access and speedy operation. The standard 100ft manual (or optional electric) reel is positioned to deploy on the curbside.

Our latest innovation was to add the option of your choice two Wick Si 3 stage electric syart pressure pumps. The 7hp model delivers 200psi and and the 10hp model, a whopping 250psi.

## Optional Features

- Scotty 4072 Mini Through-the-Pump Foam Induction System
- Electric Start Pump
- 200 and 250 psi Pumps
- Electric Reel
- Hannay Polished Aluminum Reel (12VDC)

## WEIGHT TABLE

	100 Gallon	125 Gallon	150 Gallon	200 Gallon
Tank +Skid (dry)	180	240	300	325
Water Pump (std)	21	21	21	21
Hose Reel	29	29	29	29
Boostlite Hose 100'	18	18	18	18
Misc. Plumbing, Hardware, Battery and Cable, Nozzles, etc.	52	52	52	52
<b>Subtotal (Dry Weight)</b>	<b>300</b>	<b>360</b>	<b>420</b>	<b>445</b>
Water Weight	820	1025	1230	1640
Fuel Weight	7	7	7	7
<b>Total (Wet Weight)</b>	<b>1127</b>	<b>1392</b>	<b>1657</b>	<b>2092</b>

## PUMP OPTIONS

	Wick 100-4H	Wick Si 250-7K	Wick Si 300-10B
Fuel	4 Cycle	3 Cycle	3 Cycle
HP	2.5	7	10
PSI (max)	100	215	260
GPM (max)	68	90	90
Weight (lbs)	21	53	78
